## INTERNAL HEAT PUMP FROM STIEBEL ELTRON

TAKE ADVANTAGE OF AN INFINITE RESOURCE FROM THE WWK300

**STIEBEL ELTRON**

Technik zum Wohlfühlen

MADE IN GERMANY

EST. 1924

# TECHNICAL DATA:

CONSTANTLY HOT WATER...FOR THE WHOLE HOUSE.

## THE WARM WATER HEAT PUMP WWK SAVES UP TO 80%

The WWK 300 extracts up to 80% of free energy from the room air. Reduces emissions, protects resources and saves money.

### Mature technology for optimum convenience!

For more than 30 years, Stiebel Eltron has been investing time and effort in the development of highly efficient heat pumps. Today, you can reap the benefit by investing in reliable and fully developed technology, which offers you every available convenience. Heat pumps protect the environment whilst saving you money.

Type	WWK300
Order number	07 43 61
Application range	6 to 35°C
Loading	~240V/50 Hz
Air flow rate	550 m <sup>3</sup> /h
Storage capacity	303 Litre
Process medium	R134a (850g)
Performance factor (COP)*	4.2
Standby-energy consumption	0.74 kWh/24h
Dimensions (HxWxD)	1792 x 660 x 690
Weight (empty)	150kg (filled 455kg)
Electric heating element	1.5kw
Install indoors	13 m <sup>3</sup> required
Distant off the wall	Min 200mm

\*According to EN255

### REC value for zones:

Zone 1 = 30 Zone 2 = 26 Zone 3 = 30 Zone 4 = 30

## AT A GLANCE...

### THE ADVANTAGES OF A WWK300:

- ✓ Uses up to 80% of free environmental energy and converts that into useful heat
- ✓ Reduces the energy costs for the hot water demand by up to 80%
- ✓ Heat pump technology makes an important contribution to environmental protection
- ✓ Dehumidification and cooling of the installation room are pleasant side effects
- ✓ Ducting cones available for installation in smaller areas
- ✓ Extreme low heat loss
- ✓ CFC-free heat insulation
- ✓ Very convenient due to a hot water storage capacity of 300 litres-  
easy space saving installation
- ✓ One of the best alternatives for a warm water supply system in a one family house
- ✓ Proven Germany Quality
